

CONTINUCARE™

Colic Care Reimbursement Program

The CONTINUCARE™ Colic Care Reimbursement Program:

Enrolling your horse in CONTINUCARE™ Program does not guarantee that your horse will not colic, but, if you've done your part by following all of the CONTINUCARE™ Program rules and regulations listed below, CONTINUCARE™ Program will provide reimbursement of certain of your costs of surgery and aftercare for a horse which colics.

CONTINUCARE™ Program is not an insurance policy or a substitute for insurance coverage. Any payments to you as a result of your enrollment in CONTINUCARE™ Program will be net of any insurance recovery.

CONTINUCARE™ PROGRAM ELIGIBILITY:

Your horse is not eligible for CONTINUCARE™ Program if any of the following apply:

1. He/she is not fully weaned.
2. He/she is not at least 5 months old.
3. He/she is more than 20 years old.
4. He/she has experienced colic at any time during the last 12 months.
5. He/she has a history of chronic colic.
6. He/she has ever had colic surgery.
7. He/she does not have an attending veterinarian.
8. You change attending veterinarians after your enrollment becomes effective. Because your attending veterinarian is so important to your horse's care, your horse will no longer be eligible for CONTINUCARE™ benefits if you change attending veterinarians after your enrollment becomes effective. You may, of course, re-enroll your horse under a new attending veterinarian, but you will need to meet all of the eligibility requirements and complete a new Application for Enrollment and wait for a new CONTINUCARE™ Certificate, just as if you were enrolling your horse for the first time.

CONTINUCARE™ CONDITIONS:

Each horse which you enroll in CONTINUCARE™ Program must live in the 48 contiguous United States, must have an attending veterinarian and must receive all of the treatments and services listed under HORSE OWNER DUTIES.

HORSE OWNER DUTIES: To be eligible for CONTINUCARE™ benefits, you must:

1. Give your enrolled horse year-round daily doses of CONTINUJEX® (pyrantel tartrate) Daily Dewormer, in accordance with label directions (dated proofs of purchase of CONTINUJEX® Daily Dewormer are required).
2. Give your enrolled horse twice yearly treatments of a dewormer with ivermectin (proofs of purchase are required).
3. Obtain annual immunizations for your enrolled horse from the attending veterinarian.
4. Obtain annual physical examination/treatments for your enrolled horse from the attending veterinarian.
5. Obtain annual dental examination/treatments for your enrolled horse from the attending veterinarian.
6. Obtain appropriate nutritional counseling for your enrolled horse from the attending veterinarian.
7. Comply with all of the attending veterinarian's suggested treatments for your enrolled horse.
8. Keep complete records of products and services obtained for your enrolled horse as required for CONTINUCARE™ benefits (for example, keep documents proving that your enrolled horse has received his/her annual physical examination/treatments, annual dental examination/treatments and appropriate nutritional counseling, and keep dated proofs of purchase for CONTINUJEX® Daily Dewormer and dewormer(s) with ivermectin.
9. Upon Farnam's request, provide Farnam with complete records of the above products and services obtained for your enrolled horse.

Each of the duties listed above must be conducted, documented and/or purchased through your licensed, attending veterinarian (except for CONTINUJEX® Daily Dewormer and dewormer purchases, which require dated proofs of purchase). Failure to adhere to each of the conditions listed above will result in your enrolled horse being ineligible for CONTINUCARE™ benefits.

If your enrolled horse experiences a case of colic that requires surgery, you must pay all costs associated with the surgery and aftercare until Farnam Companies, Inc. or its administrator officially approves the Request for CONTINUCARE™ Reimbursement in accordance with the terms and conditions of CONTINUCARE™ Program. Any and all costs which exceed \$5,000 will remain your complete responsibility for payment.

ATTENDING VETERINARIAN DUTIES: The attending veterinarian must affirm that the horse is under his or her direct care, and that a veterinarian/patient relationship exists.

CONTINUCARE™ CERTIFICATES: Upon Farnam's approval of enrollment, Farnam or its authorized representative will mail a CONTINUCARE™ Certificate to you and to your attending veterinarian. Enrollment does not begin until the date displayed on the CONTINUCARE™ Certificate, and you will not be eligible for any CONTINUCARE™ reimbursement until the date shown on the CONTINUCARE™ Certificate.

CONTINUCARE™ COMPLIANCE: You must fully comply with each of the rules and requirements listed in this enrollment form. If you fail to comply with any of these requirements, that failure shall constitute grounds for Farnam to disqualify your horse from CONTINUCARE™ Program and you will not receive any reimbursement under CONTINUCARE™ Program.

CONTINUCARE™ LIMITATIONS: CONTINUCARE™ reimbursement will be limited to a maximum of \$5,000 per enrolled horse towards the cost of colic surgery and three days of aftercare. You will be solely responsible for any expenses which are not part of the cost of colic surgery or aftercare, as well as any expenses over \$5,000 and any expenses which you incur for an ineligible horse.

CONTINUCARE™ LIMITATIONS FOR VETERINARIAN-OWNED HORSES: If you are a veterinarian or your enrolled horse is fully or partially owned by a veterinarian, surgeon, or by the immediate family member of a veterinarian or surgeon, CONTINUCARE™ reimbursement will be limited to 50% of the cost of colic surgery, with a maximum CONTINUCARE™ reimbursement of \$2,500.

CONTINUCARE™ REIMBURSEMENT REQUESTS: If your enrolled horse has a case of colic that is serious enough to require surgery, you must submit an Affidavit of Compliance and a copy of your horse's medical history to Farnam Companies, Inc., or its appointed administrator, within five days of the surgery date. Also, a Request for CONTINUCARE™ Reimbursement must be signed and completed by the attending veterinarian and submitted to Farnam or its appointed administrator within five days of the surgery date. Failure to comply with the five-day time period will result in denial of CONTINUCARE™ reimbursement. Farnam or its administrator reserves the right to review all applications, purchase receipts, health records and Affidavits of Compliance prior to making a decision regarding CONTINUCARE™ reimbursement. Final decisions on the acceptability of all requests for CONTINUCARE™ reimbursement shall be made by Farnam and its administrator at their sole discretion. All Requests for CONTINUCARE™ Reimbursement will be examined for compliance with the CONTINUCARE™ Colic Care Reimbursement Program.

DISCLAIMER: Farnam assumes no responsibility or liability for the rendering of services or products not manufactured by Farnam or under Farnam's control or supervision.

PROGRAM TERMINATION: Farnam may terminate CONTINUCARE™ Program without any advance notice, and Farnam, in its sole discretion, reserves the right to disqualify any horse, horse owner, veterinarian or surgeon from CONTINUCARE™ Program.
