Copper	18 mg

The Liquid Hoof Supplement

Everything your horse needs for healthier hooves in a liquid formula

More Horse Owners Agree*

Liquid supplements are more easily absorbed!

INGREDIENTS AND DESCRIPTIONS

Biotin.....20 mg
Nothing is more critical to healthier hooves. 20 mg of biotin each day will help improve hoof wall quality and strength.

Methionine.....2,000 mg
Essential for optimum hoof protein development. Methionine is found naturally in grass, but sufficient amounts are frequently lacking in a horse's daily diet.

Lysine.....2,000 mg
Plays a major role in the growth and maintenance of all body tissues. Adequate levels may also be lacking in the horse's daily intake.

MSM.....1,000 mg
Stimulates production of collagen, necessary for formation of healthy hooves.

Zinc53 mg
Important in the keratinization process to provide maximum hoof quality.

Scientifically Formulated Liquid for Maximum Absorption

* Data on file.

The easy new way to healthier hooves

Easily absorbed.

Introducing a more convenient, effective way to ensure healthier hooves. Simply pour it or administer with a dose syringe to ensure your horse gets a maximum blend of the most essential ingredients necessary to grow stronger, healthier hooves.

Just 1 ounce a day keeps hooves in top condition

Next Level Hoof Fluid has a highly palatable apple flavor horses like. Pour it on – it won't sift down or blow away like powders. Or administer with dose syringe.
